# UN OBSERVER STATUS FOR g7+

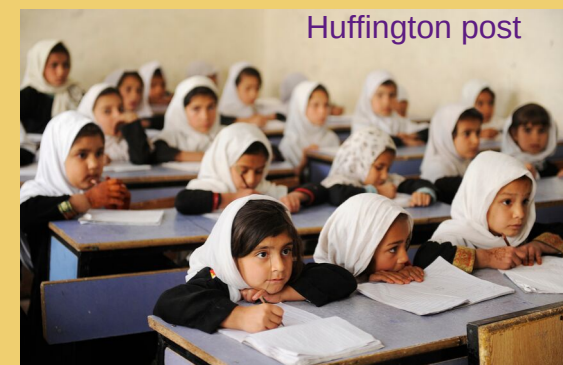

The observer status will enhance opportunities for the group to support achieving conflict prevention agenda and bring g7+ closer to the United Nations.

We strongly committed to implementing the Agenda 2030. In particular, we actively support, implement and establish partnership for the implementation of Goal 16 "peace, justice and effective institutions".

The status will enable us to work closely with relevant UN Department on peacebuilding and state building and advocate for a better UN Intervention that is delivered efficiently and cost-effectively.

The g7+ has the knowledge, experience and expertise in the global fight for peace and development in the world.

We are a treasured asset and ally to the United Nations to maintain and sustain global peace.
